Hx Present Illness/Past Medical Hx/Platelet Graft Therapy:

51 y. o. female who presented with a several month history of **osteomyelitis** and a Diabetic Neuropathic Ulcer on her left first toe. She has a history of Diabetes. This patient lives in Kansas and was referred from a Podiatrist in Little Rock. Her history of care for the Osteomyelitis consisted of saline dressing. The previous suggested course of treatment was a **digit amputation**. The progress of the autologous platelet graft can be seen in the following pictures.
